Automate Performance Management and Simplify Collaboration

Control every aspect of your business with our all-in-one performance management platform for your teams (employees, partners and suppliers)

Performance Management
Simplify performance management and make it easy for your teams to drive their success

CRM
Manage all your sales, marketing, support, and suppliers effortlessly

Collaboration
Structured yet simple and efficient tool for team communication and knowledge sharing

HRMS
Powerful HR tool covering all your people's needs

Gamification
Make performance management fun and exciting for your team

Rewards
Reward and motivate your rock stars so that they continue to move and shake your business straight to success

Document Management
Create a "toolbox" for each role to increase productivity and stop losing time hunting

Task Management
Simplify task management and distribution (1:1 or to everyone) with a single view that helps with prioritisation, collaboration and progress
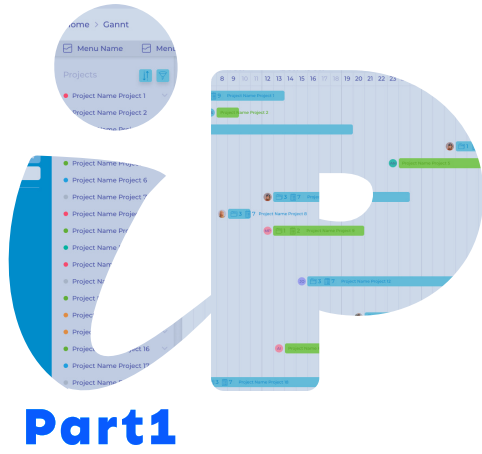

Communications
Design custom feeds that automatically pull and organise internal and external information to save time spent searching

Business Intelligence
Have a look across the organization to see the trends in the business.

Custom Integrations
Simplify employee experience and hide your spaghetti junction of tools with one interface into your business

Project Management

A powerful tool to manage projects and digitize processes quickly and easily

- Scheduling
- Geotagging
- Task Dependency
- Project Templates
- List, Board, Gantt Views
- Collaboration Tool
- History Log
- Fully customisable

Kiss goodbye to multi-solution and use iProjects to manage all your projects and digitise your processes

iProjects
**Part1**

VARIOUS VIEWS

Use the whole variety of projects visual representation to get a 360 view of your business

List View

Use the whole variety of projects visual representation to get a 360 view of your business

Board View

Use the whole variety of projects visual representation to get a 360 view of your business

Gantt View

Holistic view of the whole project portfolio timeline with all its dependencies and milestones

Journey View

Create customers' and employees' onboardings with a unique journey view

PROCESS DIGITIZATION

Digitize routine processes and project management tasks to drive focus and productivity

Scheduling

Setup a timer to launch digitized processes and projects to automate the scheduling activity

Templates

Convert regularly run processes and projects into templates to save your time launching repetitive activities

Geotagging

See the exact location of the team sending updates and get a visual notice if they are at the expected location

Task Dependency

Connect tasks to simplify scheduling, ensure accurate forecast of completion and drive sequential actions

INTEGRATION SECTION

Data Import

Import data from 3rd party solutions via CSV upload or API connection
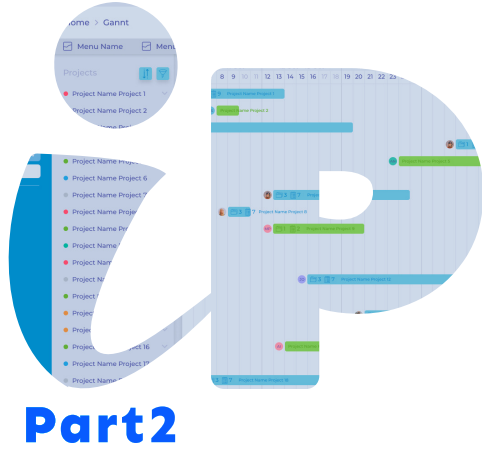

Connect External Data

API connection to other project tools to allow two-way updates when working with external parties

iProjects
Part2

Kiss goodbye to multi-solution and use iProjects to manage all your projects and digitise your processes

Description

There is no one "best practice". What applies to one company, may not hold for another. What applies to one team, may not apply to the next. As such, every team has its own best practices, guidelines and process flows designed specifically for their needs.
